

## **Connexion Technologies Partners with Westdale**

*Cary-based technology company to serve thousands of residents in communities nationwide.*

Cary, North Carolina, May 4, 2011 –Westdale Investment Partners LLC, a real estate investment company, selected Connexion Technologies to customize and manage its telecommunications networks. Connexion is building network solutions for the delivery of services such as television, high-speed Internet, and telephone for residents in several Westdale properties.

Westdale’s nearly 5,000 units are located in markets including Chicago, Atlanta, Denver and Houston. Connexion Technologies began installation and activation of these networks earlier this year and Westdale reports ongoing successful installations across its portfolio.

“Resident satisfaction is a hallmark of a Westdale community,” said Judy Ziner, vice president of asset management. “By partnering with Connexion Technologies we are able to provide state of the art television, high-speed Internet, and telephone services to our residents at a favorable cost. We can count on Connexion to deliver the level of service we expect and our residents demand.”

“Our unique business model allows us to deliver a customized technology solution that best fits the needs of each property,” said Carter Teague, executive vice-president of Connexion Technologies. “We are very proud of the work we’ve done with Westdale.”

Connexion Technologies completed work on six Westdale communities and hopes to continue to serve additional properties within the portfolio in the coming months.

“The physical conversion to a fiber-optic network was a highly coordinated team effort that resulted in virtually no disruption to our residents or the on-site staff,” said Ziner. “We look forward to expanding our partnership with Connexion as our portfolio continues to grow.”

About Connexion Technologies

Connexion Technologies customizes and manages advanced communications networks in residential properties nationwide. Its networks optimize the communication experience and value of properties for residents and owners. Connexion Technologies is not a service provider, rather it selects and manages providers that offer entertainment and communication applications, including enhanced television, telephone and Internet services over Connexion's provider-neutral networks. The company is based in Cary, North Carolina. It was established in 2002 and serves properties nationwide.
