

FOR IMMEDIATE RELEASE

Connexion Technologies Forms Two New Partnerships

Cary-based technology company to serve properties in North Carolina and Tennessee.

Cary, North Carolina, Feb. 24, 2010 – Connexion Technologies announced two of its newest partnerships today, Madison Apartment Group and VantagePointe Investments. Connexion Technologies will serve Madison at Treybrook, one of Madison’s North Carolina communities, VantagePointe Homes at Marrowbone Heights and VantagePointe Homes at Franklin Heights in Tennessee. Connexion will create a customized network solution for the delivery of services such as television, high-speed Internet, and telephone for residents in these three communities.

“Our unique business model enables us to deliver a customized technology solution that best fits the needs of each property,” said Carter Teague, executive vice-president of Connexion Technologies. “By welcoming and managing a wide variety of leading service providers on our infrastructure, we can enable the delivery of a robust selection of service offerings at a significant savings.”

The Madison Apartment Group is the 41st largest property owner in the nation and owns more than 75 apartment communities across the country.

“I began negotiations with Connexion last year. I was quite impressed during my inspection of their headquarters, training facility and field installation and consequently signed a prototype property to begin the Connexion experience,” says Edward Hindman of the Madison Apartment Group, L.P. “There is no question the Connexion experience will be well received by our residents.”

VantagePointe Investments owns communities throughout the Southeast. Connexion Technologies will deliver a customized solution for its two new communities, VantagePointe Homes at Marrowbone Heights and VantagePointe Homes at Franklin Heights.

“We are very pleased to be partnered with Connexion Technologies, for services related to these two properties in the Nashville area, and as the Managing partner of VantagePointe Investments, LLC. We are pleased to be on the cutting edge of the technical world of services for our residents’ convenience,” said Ron Wilkinson of VantagePointe.

“As the largest privately held investment company of their kind in the country, Connexion Technologies has been able to immediately increase the value of our portfolio across the board without risk or a capital contribution on our end.”
